

## What I will Learn:

\*I can understand what we can see and find in our local area.

**\*I can understand what human and physical features are and recall these in our local area.**

\*I can use maps on the internet to explore the landscape and usage around out local area.

\*I can understand who would use a community park and for what reasons.

\*I can create a map of the facilities that would be ideal for a community park

\*I can create a key for my map.

# GEOGRAPHY

# Spring 1

## Our Local Area

## Vocabulary:

Local area - the area around where we live / go to school.

Land use - what land is used for.

Human features - geographical features that are man-made.

Physical features - geographical features that are natural.

Community park - a leisure area that can be used by a whole community.

Map - an overhead view of an area.

Key - a part of a map that explains what each symbol means on the map.
