

# Pattern

## Key Vocabulary

**Patterns** - a repeated decorative design

**Repeating** - the act of doing something again and again

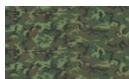

**Colour** - what you see when light shines off an object

**Symmetry** - when an object has two or more identical parts that are a mirror image of each other.

**Camouflage** - a way of hiding something so that it looks like its surroundings

## What I will learn:

- To understand patterns that we see in nature - leaves, pine cones, animal skins.
- To be able to copy patterns that repeat
- To be able to use colour in patterns
- To explore creating patterns using drawing, painting and other mediums.
- To explore how patterns can be symmetrical - butterflies and create symmetrical patterns using paper folding.
- To explore how patterns can be used as camouflage.
