

Class I Design Technology Knowledge Organiser

Spring Term

Textiles

Weaving

Key Vocabulary

Evaluate - to judge something

Create - to make something new

Explore - to look at, learn, or understand something

Design - to draw or plan to show how something will look or be made

Materials - something that is used to build or make new things

Weave - to pass long threads over and under each other.

What I will learn:

- To explore different clothing, pictures that involve weaving and discuss what this means.
- To explore weaving different materials of different thickness & material and discuss which are hard or easy to weave and why.
- To create simple weaving looms and weave chosen materials in different ways.
- To use DT vocabulary to discuss own weaving and say what I like, what could be improved in my work and that of others.
